

- Are you worried that your market or supply could get cut?

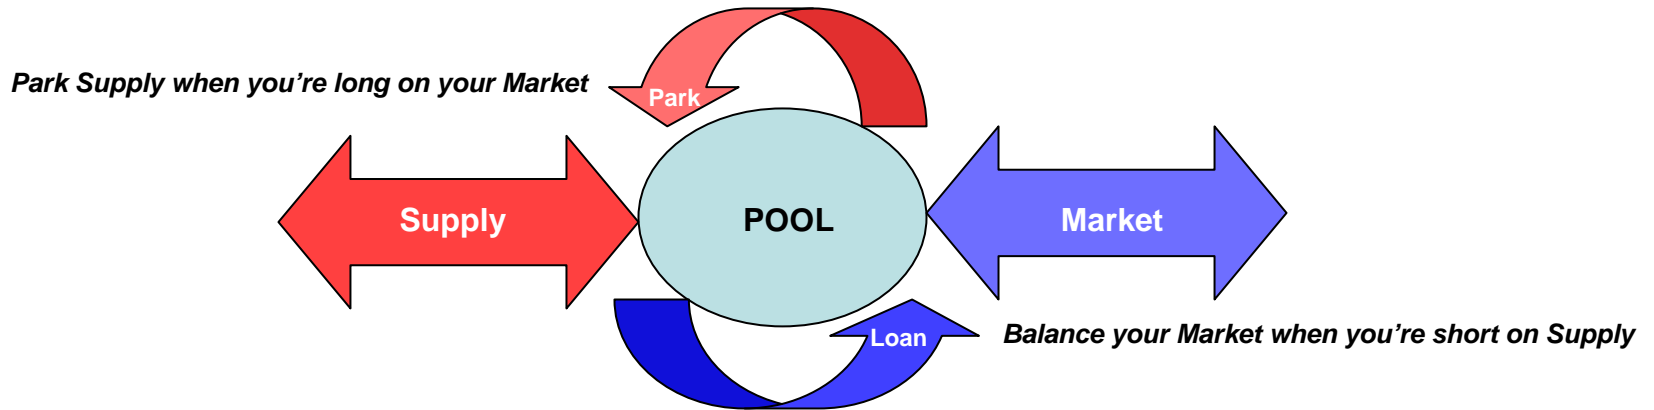

- Want to increase your chances of keeping your market and supply whole?

- You may want to consider using our Auto-balancer Interruptible Parking and Lending Service (IPLS).

IPLS Auto-Balancing

IPLS Auto-Balancing
✓ For use on both SE and SW Headstations
✓ Nominate once and leave it alone
✓ Automatically balances your nomination activity with a park or lend
✓ You choose your balance; set your nomination limit and system will balance accordingly
✓ Designed to absorb supply/market reductions (e.g. pool balancing and confirmation cuts)
✓ To be used on transmission or gathering pool
✓ Rate of \$.10
